WORLD'S FAIR WORK

A Message From the President
on the Subject

SENT TO THE HOUSE OF CONGRESS

It is Accompanied by the Annual Report of the World's Columbian Commission. Eight Million Dollars More Wanted from the United States Government.

WASHINGTON, Feb. 25.—The president submitted to congress yesterday a message concerning the world's fair, together with the annual report of the world's Columbian commission, the report of the government board and the board of lady managers. The message is as follows:

To the Senate and House of Representatives:

I transmit herewith, for the information of congress, the annual report of the world's Columbian commission; a supplementary report of the same commission submitted Feb. 16, 1892; the report of the board appointed by me under Section 16 of the act of April 25, 1890, to have charge of the exhibit to be made by the executive departments, the Smithsonian institute, the fish commission and the National museum, and the report of the board of lady managers provided for by Section 6 of the act referred to.

The information furnished by these reports as to the progress of the work is not only satisfactory, but highly gratifying.

The plan and scope adopted, and the site and buildings selected and now being erected, are fully commensurate with the national and international character of the enterprise contemplated by the legislation of congress. The Illinois corporation has fully complied with the condition of the law that \$10,000,000 should be provided, and the government commission reports that the "grounds and buildings will be the most extensive, adequate and ornate ever devoted to such purposes."

It seems, however, that from \$5,000,000 to \$8,000,000 more will, in the opinion of the local board and the national commission, be necessary to prepare the exposition for a complete and successful inauguration.

It will be noticed from the reports that it was first proposed by the local commission to ask of congress a loan of \$5,000,000, to be repaid from receipts, and that the national commission approved this suggestion. Subsequently the Illinois exposition corporation reconsidered its action and determined to ask a subscription of \$5,000,000.

The supplementary report of the national commission seems to approve this amended proposition; I have not myself that detailed information as to the financial necessities of the enterprise which would enable me to form an independent judgment of the additional amount necessary, and am not, therefore, prepared to make any specific recommendation to congress upon the subject.

The committees of congress having this matter in charge will undoubtedly obtain full and accurate information before final action.

The exposition, notwithstanding the limitations which the act contains, is an enterprise to which the United States is so far committed, that congress ought not, I think, to withhold just and reasonable further support, if the local corporation consents to proper conditions.

Liberality on the part of the United States is due to the foreign nations that have responded in a friendly way to the invitation of this government to participate in the exposition, and will, I am sure, meet the approval of our people. The exposition will be one of the most illustrious incidents in our civic history.

I transmit, also, certain resolutions adopted by representatives of the national guards of the various states, appointed by the governors to attend a convention which was held in Chicago on the 20th of October, 1891, with a view to consider the subject of holding a military encampment at Chicago during the exposition.

BENJAMIN HARRISON.
EXECUTIVE MANSION, Feb. 24, 1892.

Extracts of the Report.

The report of President Palmer to President Harrison, dated Nov. 25, 1891, accompanies the message. The report says that within the twelve months intervening since the last report, most satisfactory advancement has been made in every department of the work; and the substantial results already attained furnishes the assurance that the work of preparation will be fully completed within the period contemplated by the act of congress; and that the exposition will be inaugurated and conducted in a manner worthy of its national and international character.

Concerning the exposition site, the report says it is exceptionally eligible and fully adequate to all its demands.

Referring to the allotment of space for exhibition purposes, the report says that "the grounds and buildings will be the most extensive and adequate ever devoted to such purposes."

The report says the fifteen great departments are in active operation under the direction of competent and efficient chiefs.

The monthly reports of the operation thereof show that they are judiciously and economically administered and demonstrate the wisdom of adopting this method of administration.

The report says that considering the importance and value of the service rendered by the commission to European countries last summer in the interest of the fair, it has been determined to send out another special commission of three persons to visit Spain, Portugal, Italy, Greece, Turkey and the Danubian and North African states, which countries the first commission was unable to visit, and that it has also been determined to constitute a special commission to visit the republic of Mexico, the latter commission to defray its own expenses.

The report refers to the changes made in the plans of the exposition, for which the local directory claims the government should appropriate \$5,000,000, and it says concerning the revision that it "so enlarges the plan and scope thereof," as to make it more comprehensive and render it more satisfactory to intending exhibitors.

Concerning the board of lady managers the report says that this auxiliary body is actively and energetically engaged in the work within the sphere assigned to it by the commission, and its achievements already indicate the propriety of its creation, and leaves no room for doubt that it will be the means of enlarging the influences and usefulness of women of all participating nations. The report adds that the total expenses of the board of lady managers, from its creation, Nov. 15, 1891, amount to the sum of \$22,906.90.

Concerning the proposed loan of \$5,000,000 the report says: "During the fifth session of the national commission, held in September, 1891, the world's Columbian exposition (the Illinois corporation) after having made a careful and accurate estimate of the expenditures that would be required to prepare and equip the grounds and buildings in a manner reasonably adequate to meet the demands of the exposition, determined that it would be necessary for the corporation to secure a loan of \$5,000,000, and also that it intended to apply to the congress of the United States for such loan. Having so determined, two communications were addressed to Hon. William T. Baker, president of the Illinois corporation to the national commission, asking its concurrence and co-operation in support of the effort to secure the loan proposed."

The report of the judiciary committee of the national commission, recommending the appropriation is also submitted, and concerning it the president's report says: This report, after having been fully debated and considered, was adopted by the commission with practical unanimity, as the record discloses but three dissenting votes. The action of the commission, as expressed in its resolution in this behalf is based upon the finding of the directory of the Illinois corporation of the necessity for the loan, and upon the further fact that in the judgment of the commission, the Illinois corporation has made ample provisions for the \$10,000,000, which it was required to raise and furnish by the act of congress, and had fully discharged its obligations.

After reference to additional standing committees the report says, in connection to awards, that the national committee, having determined that by the terms of Section 6, of the act of congress, the appointment of judges and examiners for the awarding of premiums, as well as all that pertains to the general subject of awards, is peculiarly within the exclusive province of the commission, finds itself without means to execute its functions in this behalf, and, therefore, respectfully requests that such an appropriation be made for the purpose as, in the judgment and opinion of its committee on awards, will be adequate therefor; such opinion to be communicated to the committee on federal legislation, to the end that it may be properly presented to congress.

In regard to dedicating ceremonies the report states that a suitable arrangement and program has been made and adopted for this purpose on Oct. 11, 13 and 14, 1892.

The finances of the commission are referred to as follows: "While in the prosecution of its work the national commission and its several committees have reduced their expenditures so far as possible consistently with the work to be performed, it nevertheless finds it impossible to keep its expenditures within the limits of the appropriation for the current fiscal year. This appropriation is \$59,500, whereas, by the most rigid economy, it can scarcely be hoped that the aggregate expenses for the present fiscal year will be less than \$80,000, so that there will necessarily be a deficit of not less than \$20,000. The commission, therefore, respectfully recommends that provision be made for its necessary current expenses in order that it may be able to properly discharge the duties and functions imposed upon the commission."

Work of the Women.

The report of the board of lady managers shows the operations of the board from Nov. 19, 1890, to Nov. 19, 1891. Mrs. Potter Palmer, president of the board, states that the preliminary work in most of the states has tended to the securing of liberal legislation, liberal state appropriations and the official recognition of women upon state commissions. Ten per cent. of the \$800,000 donated by Illinois for the fair was given to the women's board. A large proportion of the twenty-eight states that have made world's fair appropriations, and have appointed state commissions, have given women representation thereon. The most jealously guarded privilege of the board of lady managers was that accorded by act of congress allowing it to appoint one or more members of all juries to pass on work, done wholly or in part by women. The women's building was now almost completed, and was further advanced than any of the other structures. Miss Sophie Hayden, of Boston, being the architect.

Women were now doing the decorating sculptor work on the exterior of the women's building, and many women are using the chisel, hammer and saw in working on the building.

A Military Encampment.

The president also transmitted resolutions adopted by the national guards of the several states appointed by the governors to attend a convention held in Chicago Oct. 27, 1891, with a view to considering the subject of holding a military encampment at Chicago.

TEN MILLION MORE WANTED.

Mr. Palmer Writes Another Letter to the President on the Subject.

WASHINGTON, Feb. 25.—T. W. Palmer, president of the world's Columbian

exposition, in a letter to the president, under date of Feb. 16, calls attention to the report submitted Nov. 25, 1891, citing the action of the national commission upon the proposition of the Illinois corporation to apply to congress for a loan of \$5,000,000. Since the submission of this report, the board of reference and control of the national commission had been authoritatively advised by the Illinois corporation that it had requested its members to apply to congress for a loan of \$5,000,000, and had determined to apply for an appropriation for a like sum.

An aggregate expenditure of \$18,000,000 would have been made up to the time of the opening of the exposition gates. It would be evident that while the Illinois corporation had made ample provision for the sum of \$10,000,000 in fulfillment of the obligation imposed upon it by the act of congress, it would, however, even if an appropriation of \$5,000,000 be made by congress, be required to provide an additional sum of \$3,000,000.

President Palmer says: Considering the national and international character of this undertaking the manifest desire of the American people, that its success shall be fully assured, and the relation which the government necessarily sustains thereto, an appeal to congress for aid in the manner proposed, in a sum slightly in excess of one-fourth the total cost of the work for the time of the opening of the gates, would seem to be entitled to special consideration from the standpoint of patriotism and national interest; more especially as this aid is necessary to complete the work.

BALTIMORE BLAZE.

One Fireman Killed, Another Injured and a Heavy Property Loss.

BALTIMORE, Feb. 25.—Yesterday afternoon at 12:30 o'clock a fire was discovered in the Abell building, at the corner of Baltimore and Eutaw streets, which caused the loss of a fireman's life and damage to property estimated at about \$125,000, besides severe but not dangerous injury to another fireman.

The fireman whose life was lost was Leon Talbott; the one who escaped with severe burns was Frank Miller. The structure in which the fire began was one of the finest warehouses in the city. It is five stories in height, being built of brick and marble. The flames rapidly spread throughout the large structure and for two hours baffled the efforts of the firemen.

Miller and Talbott went to the fifth floor and attempted to put out the flames with fire extinguishers. The blinding clouds of smoke greeted them and they attempted to escape. They were unable to see where they were going, but made their way to a window on Baltimore street front. Miller climbed out on a ledge beneath the fifth story windows. Talbott tried to follow, but the smoke and flames overcame him and he fell back in the burning building. His body was not found until the flames were entirely extinguished.

Fire in a Hotel.

SCRANTON, Pa., Feb. 25.—A fire occurred last evening in the Lackawanna Valley House, causing a loss of \$5,000. Over sixty guests were in the hotel at the time and a panic occurred among them. They all rushed into the street for safety, but as the fire did not damage the sleeping apartments, they returned after the excitement had subsided. Reichert's jewelry store, which was on the ground floor of the hotel building, was also damaged to the extent of \$5,000.

INDIANAPOLIS PEOPLE WALK.

The Street Car Strike Unchanged, and Not a Car Moving.

INDIANAPOLIS, Feb. 25.—President Frenzel, of the street railway company, yesterday made another futile effort to run cars, but the strikers promptly returned the car to the barns and no further effort was made. When the strikers advanced to the car the police were telephoned and asked to send assistance, but a reply was again received that no policemen would be sent to the scene. When Frenzel returned to his office he addressed a note to the mayor detailing the events of the morning and reiterating his determination to hold the city responsible.

It was expected that the company would file injunction suits against the strikers today, and the complaint was prepared, but Frenzel concluded not to file the suit as it would take the matter from the city to the county, and he did not think it advisable to do this when he expects to hold the city responsible for the loss incurred by the company.

Something Must Soon Be Done.

WINNIPEG, Man., Feb. 25.—The negotiations which have been in progress between the Canadian Pacific officials and the conductors and brakemen of the same road regarding a readjustment of the scale of wages, have reached a critical point. There must soon be either a settlement of the question at issue or a strike. The demand of the conductors and brakemen involves an increase of pay, they desiring the standard of wages which obtains in the western states, to be adopted here.

Awaiting the Arrival of Food.

WASHINGTON, Feb. 25.—The secretary of state is in receipt of a dispatch from the United States minister, at St. Petersburg, which says that the steamship Indiana will be received on arrival by the American consul general and others. Full arrangements will be made for the prompt distribution of cargo, as donors may determine. Minister Smith says: "I can assure faithful, conscientious distribution of all American gifts as givers may wish."

FRANKLIN, Ind., Feb. 25.—The loss of \$766 sustained by William H. Breeding while he was postmaster of Edinburg, by burglary, has been made good by the postmaster general.

HIGH CHIMNEY FALLS

A Large Factory Crushed By Its Weight.

DEATH AND DESTRUCTION.

Thirteen People Killed and Twelve Seriously Wounded—Narrow Escape of Others That Were in the Building. Other Dispatches from Abroad.

LONDON, Feb. 25.—The large chimney of Thornton's mills, at Chickheaton, fell yesterday. The chimney was over 180 feet high and almost completely demolished the mills. Thirteen persons were killed and twelve others taken out of the ruins seriously injured.

The survivors say that they heard a terrible rumbling sound, which seemed to come from the chimney. The great stack quivered and swayed, and then toppled over from the top, at first almost keeping the chimney form and then bursting into an avalanche of brick and mortar and dust, which fell with terrific force upon the mills.

All the employees heard the warning sound and, although they did not know what was the matter they stopped work instantly, and many made a rush for the exits. Then came the mass of material, crushing the mills like an egg shell, and everything was hidden by the cloud of dust that arose, dense and suffocating, from where the chimney and factory had stood.

The shrieks of women and cries of men could be heard by those who rushed to the scene of the fatality. Women dashed forth with dishevelled hair, some of them white and silent, others uttering cries of terror and of pain.

The rescuers went to work with a will. It was found, as the cloud of dust cleared away, that portions of the mills remained standing, but that the occupants could not escape, except by the windows, other means of exit having been cut off. Ladders and fire-escapes were raised and the employees were helped to the ground.

It was dangerous work, for the patches of walls seemed to reel and shake and threatened every moment to fall beneath the weight of rescuers and rescued. One poor woman, a widow, stood at a window while her little children, four in number, and not one of them over eight years of age, were in the crowd below looking up at their mother and crying as if their hearts would break. She was safely carried down.

Apparently miraculous was the experience of the men who had been at work repairing the chimney. Only a few minutes before the disaster they desisted from work for lack of material, and left the chimney just before the catastrophe.

An investigation is to be held as to the cause of the accident.

Battle in Burmah.

LONDON, Feb. 25.—A dispatch from upper Burmah says: "Captain Davies' column, after sharp fighting, expelled the Kachyans from their stockaded positions and relieved Sadone. The British loss was four natives killed and twenty-six wounded, including Lieutenant Munn." Captain Davies will attack the principal stockade tomorrow to enable him to join the Yule column. The Kachyans had maintained a continuous fire upon the Sadone garrison, which sallied out and assailed Captain Davies.

Another Wreck.

LONDON, Feb. 25.—The last wreck recorded is that of the French bark Perle, bound for Iceland and wrecked near Peter's head, Aberdeenshire, during the late severe storm. The crew did not understand the use of the rocket life-saving apparatus, and five of them who were tied to a line were brought in dead. Others jumped into the sea and perished. The life-savers worked like beavers and succeeded in landing twelve of the French steamer's crew in safety.

In Behalf of Women.

LONDON, Feb. 25.—There was a five-hours' debate yesterday in the house of commons upon a bill introduced by Mr. Andrew Provan, one of the members for Glasgow, limiting the time women should be allowed to work in stores, etc., to seventy-four hours per week. The government opposed the proposed measure, which was rejected by a vote of 174 to 132. The Liberals cheered wildly at the narrow majority secured by the government.

Monument for James Russell Lowell.

LONDON, Feb. 25.—Leslie Stephen, M. A., the editor and author, has written a letter to The Times in which he proposes that a fund be raised for the purpose of erecting a monument to James Russell Lowell, the noted American author and former minister to the court of St. James. His idea is to place it in Westminster abbey.

England Has Her Way.

CONSTANTINOPLE, Feb. 25.—The discussion concerning the investiture of the new Khedive of Egypt, which has been carried on almost since the accession of Prince Abbas to the khedivship, has been brought to an end by the sultan, who has deputed Marshal Ahmedyoub to convey the firman of investiture to the khedive.

Outrage to Humanity.

MUNICH, Feb. 25.—At a libel trial held in this city yesterday the fact was revealed that an embroidery manufacturer had in his employ women who, under the "sweating" system, received only five cents per day.

Fearing an Overflow.

LISBON, Feb. 25.—The melting snows are swelling the streams. The Tagus is rapidly rising and threatens to invade the city. Everybody is at work building levees.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

THURSDAY, FEBRUARY 25, 1892.

Danger Ahead.

We stated a few days ago that a company was being formed in this city to start a plug tobacco factory, and that \$20,000 of the stock had been taken. Yesterday we were informed that the parties interested in the matter were waiting to see whether the Legislature passes the new revenue and taxation bill in its present form. If that is done, the parties say they will establish their factory at Aberdeen.

The revenue bill will undoubtedly drive capital out of Kentucky and do the State great injury if passed in its present form. The objectionable clause proposes to tax the capital stock and all the property of a corporation and then compel the corporation to pay taxes also on the earning capacity of its capital, if we understand it correctly. This would be unjust. It's like taxing the earning capacity of an individual, and who ever thought of such a thing as that? The new law, in its present form, will prove oppressive and drive capital to other States. Here's a company with an authorized capital of \$100,000, arranging to engage in business here in Maysville, but the members come right out and say the factory will be located in Ohio if the bill is passed.

It seems to us that the business men of Maysville, speaking through the Commercial Club, should join in the protest being made against the objectionable features of the measure. It is to be hoped Senator Poyntz and Representative Frazee will look at the matter in the right light, and endeavor to have the bill amended, so that it will not become a law with such an unjust, unwise and oppressive clause in it.

THREE candidates for Circuit Clerk are now in the field, and others are spoken of in connection with the race. The fight grows lively and interesting.

THE Democrats of the country can put an end to the Hill-Cleveland wrangle in New York by rallying around Hon. John G. Carlisle, Kentucky's favorite son.

TWO HUNDRED and ten Democrats of 271 polled in Bell County favored Mr. Cleveland for President. Another straw showing the sentiment of the country outside of New York.

If the proposed law on revenue and taxation is going to drive industrial enterprises out of the State, it should be killed, or its objectionable features stricken out. The business men of Maysville should join in the protest against it in its present form.

SHEEP-KILLING dogs are abroad in the county. Mr. J. C. Humphreys, near Washington, has lost several of his flock recently, and some have been killed for Mr. Wm. Roads and Mrs. James Tucker. Come on with your dog law, gentlemen of the Legislature.

THE employees of the Belmont Nail Mills have been forced to accept a reduction of 20 per cent. in their wages, and a special to the Commercial Gazette says this will probably result in a reduction of wages all through the Ohio Valley for cutting nails. What's the matter with the McKinley bill?

ADDITIONAL interest is lent to the contest for the office of Circuit Clerk by the announcement of Mr. C. Burgess Taylor as a candidate for the Democratic nomination. Mr. Taylor is a young man well and favorably known throughout the county. He resided at Mayslick several years, and the BULLETIN's correspondent at that place paid him a deserved compliment when he said, "he is self made, honest and competent." That's a good endorsement on which to go before the people for office.

GOVERNOR BROWN says he had Captain Bolan removed from the position of Warden of the penitentiary on account of his cruel treatment of a convict. Captain Bolan says the charge is false, and that the Governor knows it. The ex-Warden doesn't mince terms but goes at the Governor with a hot stick, alleging that the Chief Executive simply wanted a place for one of his favorites. The charges made against the Governor places him in a very bad light before the people of the State, and it is to be hoped they are not true.

For the Children.

Our readers will notice the advertisements in these columns of Chamberlain & Co., Des Moines, Iowa. From personal experience we can say that Chamberlain's Cough Remedy has broken up bad colds for our children and we are acquainted with many mothers in Centerville who would not be without it in the house for a good many times its cost and are recommending it every day. Centerville (S. D.) Chronicle and Index.

Twenty-five cent, 50 cent and \$1 bottles for sale by Power & Reynolds.

KENTUCKY'S EXHIBIT.

The Bill to Provide for a Proper Display at the Coming Centennials Passes the Senate.

In the State Senate yesterday the bill to provide for an exhibit at the World's Fair was up for consideration.

An amendment to take the power of appointing the Commissioners out of the hands of the Governor and name them in the bill, was defeated. An amendment to reduce the appropriation from \$100,000 to \$75,000 was defeated by a vote of 23 to 6. The bill was then passed by a vote of 28 to 3. The nays were: Senators Conner, Clark and Orr. The provision to divert \$15,000 of the appropriation to the use of the Lexington Centennial was made mandatory instead of discretionary with the Board of Managers.

In the House Mr. Neat offered a resolution calling upon the Superintendent of the Feeble-minded Institute to furnish the House with information as to the number of pauper idiots in the place, and other matters, all of which has been fully covered in the Superintendent's annual report. The resolution was adopted.

A petition signed by sundry citizens of Covington earnestly protesting against the provisions of the McChord bill which lays heavy restrictions upon fraternal societies was presented.

The bill providing for and defining the power and duties of the Commissioner of Agriculture came up next, and a lot of amendments were offered. There was considerable debate over different parts of the bill, but it was passed substantially as it was reported. The bill dispenses with the four Advisory Commissioners provided in the original bill and reduces the general expenditures from \$13,000 to \$10,000. The Commissioner's salary is reduced from \$2,500 to \$2,000 per annum, and he is allowed \$1,300 for a clerk, or for more than one clerk, in the discretion of the Commissioner.

Warden Bolan's open letter to Governor Brown was laid on the desks of the Representatives and Senators.

Speaking of the removal of Capt. Bolan as Warden of the penitentiary, the Commercial Gazette correspondent says: "A bill will be introduced some time during the present session to create a Board of Prison Commissioners who shall take from the Sinking Fund all responsibility in such affairs. That such a bill is favored by one of the Commissioners of the Sinking Fund is known to be a fact, and it is equally known that a late Governor of the State was and is in favor of its passage. This Board would take from the Governor some of his most important patronage, but it would prevent a repetition of the scenes last week, and for that reason is desired by many."

A bill is pending to amend article 7, chapter 41, of the General Statutes, by allowing a Sheriff \$2.50 per day and necessary expenses, when sent to another county to summon witnesses for the Commonwealth in felony cases.

Here and There.

Mr. E. O. Piles, of Ogden, Utah, is in town.

Miss Anna McDougle has returned from a visit at Mt. Sterling.

Miss Jessie T. Wood, of Ironton, O., is visiting her cousin, Mrs. Amanda B. Ward, near Washington.

Mrs. Ida Rankins, of Chicago, is visiting her sister-in-law, Mrs. Charles A. Wood, near Washington.

Mrs. B. W. Coburn, who has been so dangerously ill for some time past, is slowly regaining her strength.

Mrs. Martin G. Bierley, of Louisville, is visiting her mother, Mrs. Pauline Schwartz, of West Second street.

Mrs. Sallie McDonald, after several weeks' visit to her niece, Mrs. Anderson Finch, returned home at Washington today.

Mrs. Lucy Overly and Mrs. Ida Bateman have returned home after spending a few days with Colonel Heflin and family.

Mrs. Margaret Cooper returned to her home at Terre Haute, Ind., yesterday, after spending some weeks with her mother, Mrs. Jane L. Nelson, of this county.

River News.

A year ago to-day the river was so high that the street cars couldn't pass under the C. and O. crossing at Bridge street.

The W. W. O'Neill, on the last Pittsburgh coal run, landed twenty-four barges, the Joseph B. Williams thirty-one barges and the Diamond twenty-two barges.

Due to-night: Bonanza at 9 p. m. for Portsmouth, Boston for Pomeroy and Keystone State at midnight. Down: Andes this evening and Telegraph to-night.

Religious News

The revivals in most of the churches at Covington continue, and much good is being done.

Rev. J. S. Shouse, of Lexington, has received a call to the pastorate of the Christian Church of Columbia, Mo., and has the matter under consideration.

As Staple as Coffee.

"Chamberlain's Cough Remedy is as staple as coffee in this vicinity. It has done an immense amount of good since its introduction here."—A. M. Nordell, Maple Ridge, Minn. For sale by Power & Reynolds.

Says the Portsmouth Blade: "The problem that now confronts the C. and O. railway officials is whether they will add more coaches to their present trains or put on another train each way to accommodate their travel when spring opens. A local train passing east in the morning and west in the afternoon is badly needed."

La Grippe!

The tendency of this disease toward pneumonia is what makes it dangerous. La Grippe requires precisely the same treatment as a severe cold. Chamberlain's Cough Remedy is famous for its cures of severe colds. This Remedy effectually counteracts the tendency of the disease to result in pneumonia, provided that proper care be taken to avoid exposure when recovering from the attack. Careful inquiry among the many thousands who have used this remedy during the epidemics of the past two years has failed to discover a single case that has not recovered or that has resulted in pneumonia. 25 cent, 50 cent and \$1 bottles for sale by Power & Reynolds.

THE MARKETS.

Cincinnati Tobacco Market.

(Tuesday.)

The "breaks" were large for the opening sale day, being 355 hds old and 325 hds of new, making a total of 680 hds, which was 38 hds more than the same day last week. There was a pretty fair attendance of buyers, and they were bidding fairly well.

Old tobaccos and lugs are in demand from manufacturers, and the market is very firm, and prices are generally quite satisfactory to holders. Common and medium old red leaf does not show any marked improvement, either as to demand or price, and is generally dull and inactive. Good choice old leaf is still wanted by manufacturers, and anything offering that is suitable for their wants sells at very full prices.

There was a pretty fair demand for all classes of new, and the market was quiet and steady. Of the 365 hds (old) 34 sold from \$1 to \$3.90, 104 from \$4 to \$5.95, 130 from \$6 to \$7.90, 48 from \$8 to \$9.80, 14 from \$10 to \$11.50, 13 from \$12 to \$14.75, 10 from \$15 to \$19.50 and 12 from \$20 to \$24.25. Of the 325 hds (new) 19 sold from \$1 to \$3.90, 71 from \$4 to \$5.95, 132 from \$6 to \$7.90, 46 from \$8 to \$9.80, 24 from \$10 to \$11.75, 24 from \$12 to \$14.75 and 9 from \$15 to \$18.25.

PUBLIC SALE

—OF—

SUBURBAN PROPERTY.

The undersigned will, on

Tuesday, March 8,

1892, at 2 o'clock p. m., on the premises, offer for sale his farm, located on the Maysville and Lexington turnpike, just beyond the first tollgate. It contains about

99 ACRES,

about fifty acres of it in grass, fifteen acres in wheat. The residence thereon is a good substantial brick house, in thorough repair and recently remodeled. Contains eight rooms, kitchen and outhouses; stables, corncribs and outhouses all in good repair; also a splendid

Tobacco Warehouse

on the line of the turnpike. And this has been built recently by Mr. James Cumbers and is one of the most complete tobacco warehouses in the county. It contains a good tobacco screw, scales, &c. There are three good pools, two of them never-failing; also one of the best orchards in the county, consisting of apple, peach, pear and different varieties of plum trees. I will also offer my live stock on the place, consisting of several high-bred Jersey cows and calves, about forty head of thoroughbred Poland China Hogs, a lot of yearling calves, &c. Terms made known on day of sale. (d6d4w2) D. HECHINGER.

R. B. LOVEL,

Dealer in Staple and Fancy

GROceries and PROVISIONS,

And Country Produce of all kinds. A big stock, a new stock and a clean stock. Wholesale and Retail agent for D. M. Ferry & Co.'s famous

Garden Seeds

the best in the world, in packages and in bulk. A big supply of the very best varieties of Northern Grown Potatoes for seed and Table use. Highest Market price paid for Poultry, Eggs and all kinds of Country Produce.

People from the country are invited to make my house headquarters while in town. Goods delivered to all parts of the city free of charge or delivery.

MASTER COMMISSIONER'S SALE.

MASON CIRCUIT COURT.

J. L. Horton, Plaintiff,

vs. R. R. Maltby, adm'r, &c., Defendants.

Pursuant to a judgment in the above styled cause, I will offer for sale on Saturday, February 27, 1892, at 2 o'clock p. m., on the premises, to the highest and best bidder, upon a credit of six and twelve months, sixty acres of land, owned by the late Mrs. Lucy M. Hunter, and situated on the Washington pike three miles from Maysville. Well watered, under a good fence and in a high state of cultivation. Said land has thereon a modern and commodious frame dwelling house, a large tobacco barn; a good stable and outbuildings. Having also a young orchard of well selected fruit just coming into bearing, and being a high, healthy and splendid location, it is a delightful home for anyone desiring a small farm in a good community. Possession given at once. ALLAN D. COLE, Master Commissioner. Coons & Gill, attorneys for plaintiff. 22-5t

TOBACCO REDRYING HOUSE

at J. H. Dodson's, corner of Second and Wall. Steam redrying from high case in bad condition, and steam rearing especially adapted to old tobacco. Assorting and pricing in practical manner, by DODSON & WINTER, Tobacco Dealers. 1226m

B. A. STOCKDALE, M. D., SPECIALIST,

In charge of the Electrical and Surgical Department of the Medical and Surgical Institute, Louisville, Ky., will visit Central Hotel, Maysville, Ky., WEDNESDAY and THURSDAY, MARCH 23 and 24, to remain two days only, returning every month during the year. Treats all curable Medical and Surgical diseases. Acute and Chronic Catarrh, diseases of the Eye, Ear, Nose, Throat and Lungs, Dyspepsia, Bright's Disease, Diabetes, Kidneys, Liver, Bladder, Chronic, and Female and Sexual Diseases. Epilepsy or Fits cured—a positive guarantee. Young and middle aged men suffering from Spermatorrhea and Impotency as the result of self-abuse in youth or excess in mature years and other causes producing some of the following effects, as emissions, blotches, debility, nervousness, dizziness, confusion of ideas, aversion to society, defective memory and sexual exhaustion, which unfit the victim for business or marriage, are permanently cured by remedies not injurious. Blood and Skin Diseases, Syphilis and complications, as sore throat, falling of the hair, pain in the bones, eruptions, etc., are perfectly eradicated without using mercury or other injurious drugs. Gonorrhea, Gleet, Stricture and all Urinary and Kidney troubles are speedily cured by treatment that has never failed. He undertakes no incurable cases, but cures thousands given up to die. Remember the date and come early, as his rooms are always crowded wherever he stops. Correspondence solicited and confidential. Address MEDICAL AND SURGICAL INSTITUTE, Louisville, Ky. j6-d4wly

YOU can get the WEEKLY BULLETIN for only \$1.50 a year now. It gives the important news of the day—local, State and National. If you are not a subscriber send us the money and try it one year.

BOLAN'S BRUTALITY.

He Says It Exists Only in the Mind of Governor Brown. A Redhot Letter.

The Ex-Warden of the "Pen" Denies the Charges of Cruelty, and Calls for an Investigation.

The following open letter from Captain Mike Bolan, Ex-Warden of the penitentiary, to Governor Brown and the Commissioners contains some caustic remarks about the motives prompting the action of the Board some days since in removing Bolan from his position. It is red-hot and he scores the Governor from beginning to end. Future developments will be awaited with interest:

OFFICE OF KENTUCKY PENITENTIARY, FRANKFORT, KY., February 23, 1892.

Hon. John Y. Brown, Governor and Chairman of Directors Kentucky Penitentiary—Sir: The semi-official statement in the Courier-Journal of Sunday, the 21st inst., said to be made by you, in connection with my recent removal as Warden of the Penitentiary at this place, authorizes me to address you this open communication.

To begin at the beginning, I may be permitted to say that nearly, though not quite, two years ago the Board of Directors of the Kentucky Penitentiary, on the expiration of the term of Captain E. H. Taylor, then Warden, offered me the place on its own motion and without any solicitation of either myself or my friends, or of any previous knowledge on my part of its purpose to so tender it.

I accepted the situation and have endeavored to discharge its duties with a due regard to the interests of the State and that of the inmates, as well as with the fullest determination, at all times and under all circumstances to

GURAD AND PROTECT The unfortunate beings confined to my care. How well I have performed that duty since I assumed it I am willing to leave to the decision of a generous and fair-minded public.

Shortly after your induction into office it became apparent to those interested that you had formed a deliberate purpose to remove every official then in office, subject, either directly or indirectly, to your control, who had not supported you in your contest for the Democratic nomination for Governor or who was not ready to become your willing tool to further your future political ambition. In order to be revenged upon those whose self-respect would not permit them to be used by you, you have since seen fit to prostitute your high office to such low aims and selfish methods as could only inspire a "pot-house politician." The motto of "To the Victor Belong the Spoils," adopted by your friends as that of your administration, which in its proper application might command the respect of most good citizens as entitling either political party,

WHEN IN POWER, To fill the offices with its friends, becomes but little better than veriest jargon when applied, as it has been applied by you, to rewarding your friends and punishing your enemies, without entertaining the slightest regard for the interests of the people, with an eye single only to your future political preferment. I know now, and I knew then, notwithstanding your frequent promises of support and friendship, that you wanted to be rid of me in order that you might give my place to one of your own henchmen, and that you were "dickering" with certain other members of the Board, in the hope that you might obtain the necessary votes to secure my dismissal. You were afraid to propose my immediate removal, since you knew that I had made some reputation as a faithful public official: that I had been appointed for a term of four (4) years, less than one half of which had expired, and that you could not, and dared not, give your true reason for desiring it. In order, therefore, to carry out your designs, it became necessary

FOR YOU TO WAIT Until you could trump up some charges from the depth of your imagination; or until, by the aid of one or more of the political parasites and sycophants imported by you from the city of your late residence, you could find an excuse, to the truth of which they were ready to become the swift and willing witnesses.

You have sought ever since you became, by virtue of your official position Chairman of the Board, to dictate and control its actions in your own interest, and in doing so have acted without the slightest regard as to the competency or efficiency of the official you desired to have removed or to have appointed, and, without regard to any public interest at all, you have procured the removal of officials of whose fitness you said boldly you knew nothing and appointed others whose qualifications were as little known to you,

OUTSIDE OF THE FACT That they either had or could render you a political service.

You interfered both in the matter of the appointment of guards at the prison, in open violation of the law, and informed me that none of those who claimed to have been "for you" should be removed. You tried to compel me to remove three of the guards to enable you to make appointments of a like number of friends in their places; and, failing in that, you procured an order of the Board to accomplish your purpose, although you were bound to know that such action was in violation of the law.

You sought to hamper me in the discharge of my duties by requiring an obsolete rule of the Board to be enforced that would require me to consult the Deputy Warden as to the extent of punishment that could be inflicted in any case, notwithstanding the fact that such

DIVISION OF AUTHORITY Would prove fatal to the discipline of the prison; but you did this hoping to bring about dissensions between us, and then, by deciding in favor of the Deputy, who was your appointee and your willing tool, you thought you would be able to force me to resign.

None of these schemes, however, succeeded, and you were at last forced to seize on the shallow pretext of my brutality to a prisoner named Tankersly as furnishing sufficient reasons for my removal. The man punished is one who is doubtless a "crank." He made a serious disturbance in the shops, as can be shown by the statements of Hon. Charles Patterson, Chairman of the Senate Committee of Prisons, and Hon. C. C. Spalding, Chairman of the House Committee on Prisons, and the Auditor of State, who all were in the prison yard at the time and saw the panic-stricken men running out of the shops where the trouble occurred, one of the convicts calling out that Tankersly was fighting Johnson, the guard,

and that he had a knife and was trying to kill him. Tankersly was overpowered,

TAKEN TO THE CELL-HOUSE And the Deputy Warden sent for, in deference to the rule, but was not found. Severe punishment was inflicted, and with good results, as the man has been quiet and well behaved ever since and in no way was he injured or mistreated beyond the pain of the lash.

This punishment was not more severe than has been visited upon others, less so than in some cases where the offense was equally as great and much less than the punishment inflicted by your Deputy Warden on a poor negro during my recent illness, who, having had twelve lashes in the morning, was by that official given thirty more in the evening for having told a lie. The mode of punishment inflicted in Tankersly's case is the same used,

WHENEVER NECESSARY For years past. If your attention had been less directed to securing places for your friends, perhaps you would have found time to have objected to its use sooner.

I know, and you know, that you are hoping to awaken a public sentiment against me to cover your true reasons for my removal; but your charge of brutality against me will fall flat in all that section of the State where I am known, and with whose people I should need to make no defense. For many years connected with the administration of the government of the second city in point of size in the State I have now, for the first time, to be charged with brutality to my fellowmen, and this charge, when made by the chief officer of the Commonwealth, cannot be lightly passed over. I know its falsity, you know it, but the masses of your fellow-citizens do not, and I, therefore, ask that my conduct as Warden of the Penitentiary be fully investigated by a committee of both Houses of the General Assembly, in order that truth and justice may be done to the lowest, as well as to the highest in the land. Respectfully, M. P. BOLAN.

G. S. Judd, insurance and collection agency. tf

A GOOD crowd at the old soldiers' bazar last night. All enjoyed themselves. Don't forget to go to-night. Ice cream and oysters served all hours, day and night. It

THE people have an opportunity to buy goods of W. L. Thomas & Brother at lower prices than ever offered before. The stock must go, as they have to give up their store room in a very short time. f19dtf

REV. W. T. SPEARS will preach on Sunday afternoon next at Gault's school house, on the Washington and Clark's Run pike. He will also try to organize a Sunday school at the same time. All are invited.

THE diamond rings, diamond pins, diamond ear-drops, diamond studs and diamond necklaces at Ballenger's jewelry store are as lovely and as elegant as any ever seen. For anything in the diamond line go to Ballenger.

THE work of remodeling and improving the dwelling Wharfmaster Phister lately bought on Limestone street was commenced this morning. Lane & Worrick have the contract. The building adjoins Mr. Phister's residence.

ONE hundred and seventy-six citizens of Boyle County pay taxes on \$10,000 or more, and one of them is a negro. These 176 own about four-fifths of the property in Boyle County. The one negro in the list pays taxes on \$11,377.

THE Executive Board of the Merchants' Retail Commercial Agency are hereby notified to meet at the Commercial Club Room to-night at 7:30 o'clock, sharp. Business of importance. M. C. RUSSELL, Chairman.

THE examining trial of Night Watchman Driscoll, charged with shooting and wounding Deputy Marshal Mangan, has been postponed until next Saturday morning at 10 o'clock. Mr. Mangan was not able to appear yesterday afternoon.

BEING compelled to give up their store room about the first of March, W. L. Thomas & Brother have made a still further reduction in their prices and are now offering any thing in their immense stock at prices never before offered in this market. dtf

GEORGE WASHINGTON JACKSON got back to Maysville yesterday and was fined \$10 and sent to jail for thirty days this morning by Mayor Pearce. Jackson generally gets himself into trouble as soon as he reaches this city. He was convicted this morning on charge of abusing his mother last night.

CAPTAIN JAMES K. LLOYD was in Frankfort a few days ago, and while there had a talk with Bob Farrell, who is serving a life sentence in the "pen" for killing Thomas Calvert. Farrell has an easy place now in the drug department of the State prison, along with Hume Clay, the Paris forger.

THE City Council of Carlisle has contracted with the Carlisle Electric Light Company for ten years, at \$800 per year, for ten 2,000-candle power arc lights, to be located where the Council may direct within the limits of the city. The company is to keep lights in proper repair and furnish all fixtures.

MRS. JACOB ROSER, of Washington, received a telegram yesterday apprising her of the death at Manchester, O., of her foster mother. This estimable lady had adopted and reared seven young women, and started them in life with a prosperous future. She died full of years and full of good deeds. She was past ninety years of age.

Down! Down! Down!

But this is the bottom, and, in fact, is below, and will be given for ten days only:

IT IS ALL OVER.

The Work of the Industrial Conference Finished.

AN ADJOURNMENT SINE DIE.

A Platform Adopted and a Third Party Formed—People's Party Preparing to Nominate a Candidate for President and Vice President.

St. Louis, Feb. 25.—The most exciting and important sessions of the great national industrial conference took place yesterday. The first event after the opening was a resolution introduced by Commodore Vandevort, of Nebraska, for the Union veterans present in the convention, that it was the belief of the representatives of the blue and the gray that it was time to bury sectionalism and hatred resulting from the war and join hands against the oppression of the money power of the land.

A call was made by one of the speakers to the resolution upon all the Union and Confederate veterans to clasp hands and embrace each other, and the response was instantaneous and electric. Men, both white and black, climbed over each other to find their old opponents on the battlefield, and having found them caught both hands and waving them again and again.

When the enthusiasm had subsided Delegate Branch, of Georgia, cast a firebrand in the shape of a resolution protesting against the condition of the common people of this country, and holding the Republican and Democratic parties responsible for existing conditions. There was a spirited debate, but the resolution was adopted by a vote of 410 to 139. Later it was declared to have been irregularly proposed, and was ordered stricken from the minutes until after the report of the committee on platform was heard. Then there was a tremendous row over the eligibility of a colored delegate from Georgia, which was quieted only by the entrance of the committee on platform.

Hugh Cavanaugh, a Knight of Labor member from Cincinnati, then presented the following on behalf of the committee on platform:

The Platform.

First—We demand a national currency, safe, sound and flexible, issued by the general government only, a full legal tender for all debts, public and private, and that without the use of banking corporations; a just, equitable means of circulation, at a tax not to exceed 2 per cent., as set forth in the sub-treasury plan of the Farmers' Alliance, or some better system; also, payments in discharge of its obligation for public improvements.

Second—We demand free and unlimited coinage of silver.

Third—We demand the amount of circulating medium be speedily increased to not less than \$50 per capita.

Fourth—We demand a greater income tax.

Fifth—We believe that the money of the country should be kept as much as possible in the hands of the people, and hence, we demand that all national and state revenues shall be limited to the necessary expenses of the government economically and honestly administered.

Sixth—We demand that postal savings banks be established by the government for the safe deposit of the earnings of the people, and to facilitate exchange.

Seventh—Your sub-committee upon land plank beg to submit to your approval the following: The land, including all the natural resources of wealth, is the heritage of all people, and should not be monopolized for speculative purposes, and alien ownership of lands should be prohibited. All lands now held by railroads and other corporations, in excess of their actual needs, and all lands now owned by aliens should be reclaimed by the government, and held for actual settlers only.

Eighth—Transportation being a means of exchange and a public necessity, the government should own and operate the railroads in the interest of the people.

Ninth—The telegraph and telephone, like the postoffice system, being a necessity for the transmission of news, should be owned and operated by the government in the interest of the people.

Tenth—We demand that the government issue legal tender notes and pay the Union soldiers the difference between the price of the depreciated money in which he was paid and gold.

RESOLVED, That we hail this conference as the consummation of the perfect union of the hearts and hands of all sections of our common country; the men who were the gray and the men who wore the blue meet here to extinguish the last smoldering embers of civil war in the tears of joy of a united and happy people, and we agree to carry the stars and stripes forward forever to the highest point of national greatness.

The reading of the platform was followed by tremendous applause. When the noise had subsided Frances Willard arose and read the minority report, which she submitted to the consideration of the convention. The first plank demanded universal suffrage without distinction of sex. This was vigorously opposed and for a while the convention was in an uproar. Finally the minority report was voted down and the platform adopted.

The convention then adjourned sine die, but immediately the gathering was again called to order as a mass-meeting. General Weaver, of Kansas, presiding, Delegate Taubeneck, of Illinois, announced that the executive committee of the People's party proposed to meet at once, and then the gathering decided to appoint a committee to confer with it regarding the calling of a convention to nominate a president and vice president.

Mercantile Telegraph Company.

St. Louis, Feb. 25.—The Mercantile Telegraph company has been organized here with James M. Townsend, of St. Louis, president, and W. C. Lloyd, of Chicago, secretary and treasurer. It will have wires to Chicago, St. Paul and the northwest, and will accept general business, although its main object is to carry matter for race tracks and book-makers during the racing season.

WORK OF CONGRESS.

Transactions of Both the Senate and House.

WASHINGTON, Feb. 25.—The senate yesterday passed a bill to protect foreign exhibitors at the world's fair from prosecution for exhibiting wares, protected by American patents and trade marks.

A resolution was adopted calling upon the president, if not inconsistent with the public interests, to communicate to the senate the facts in regard to recent negotiations between the British government, the Dominion of Canada and the United States, in regard to a reciprocal treaty between Canada and the United States.

A bill was introduced to prevent and punish what is known as the green goods fraud, consisting of enticing people by circular letters to purchase alleged counterfeit money. At present there is no statute by which this fraud can be reached. It was referred to the judiciary committee.

The senate, then in spite of a protest from Mr. Paddock, who desired to continue the discussion of his pure food bill, resumed consideration of the DuBois-Clagget contested election case from Idaho, which dragged along with only the feeblest manifestations of interest, until 4:45, when the senate, on motion of Mr. Hiscock, went into executive session and immediately afterward adjourned.

In the House.

Speaker Crisp, looking somewhat improved from his short vacation, assumed his post of duty and called the house to order yesterday.

A resolution was adopted directing the committee on labor to investigate whether the continuance of the eight hour law and its enforcement is desirable; by what methods and to what extent the law has been evaded; whether amendments are required to provide for a practical enforcement of the law; whether any convict labor is being used by the United States or any contractor or sub-contractor in the construction or repair of public works; whether the product of convict labor is being furnished to any department of the government.

The house then went into committee of the whole on the Indian appropriation bill, the debate being slow and uninteresting, until 4:30 p. m. when the committee arose, and the house adjourned.

ROYAL HOTEL FIRE.

The Coroner's Jury Renders a Verdict in the Recent Disaster.

NEW YORK, Feb. 25.—The coroner's jury in the Hotel Royal inquest rendered a verdict late last night. They find that Kate Reilly and the victims met their death from general burns and injuries received at the fire; that it appeared that the fire started in the elevator shaft, but they could not determine its origin; that Night Watchman Underwood failed in his duty in not discovering and in not sooner notifying the department when he did discover the same.

They further find that the absence of fire escapes on the Sixth avenue side of the hotel shows that William Seaton, the building inspector, made a false report in stating that they had been put up in compliance with the order of the building department.

Mysterious Disappearance.

JEFFERSONVILLE, Ind., Feb. 25.—Orin C. Howard, son of ex-Warden A. J. Howard, of the prison south, mysteriously disappeared from this city late Saturday evening, since which time his whereabouts are unknown. At the time of his leaving young Howard was engaged in the capacity of agent for several Cincinnati papers, together with a Louisville afternoon daily. No cause is assigned for his departure from home, except his insatiable desire to lead a western life. Howard is twenty years of age, handsome and exceptionally bright.

Faster Falling Fast.

JEFFERSONVILLE, Ind., Feb. 25.—Orin man Hopwood, the faster, is weakening rapidly. If he is alive at sunset today it will mark his twenty-sixth day of abstinence from food or drink. The fast has been absolute since the morning of Jan. 30. His condition is such that he is unable to move on his bed without assistance. He is still possessed of his mental faculties, and he continues to converse freely and intelligently on all subjects.

National Prohibition Convention.

St. Louis, Feb. 25.—The prohibitionists of this city have been notified by their national executive committee that as a precedent to the national convention coming here on June 29 they must be assured of the sum of \$3,500 to help defray expenses. Cincinnati has offered to put up this amount, and unless St. Louis raises the sum in ten days the committee will change the place of holding the convention from here to that city.

Collision of Freight Trains.

FORT WAYNE, Ind., Feb. 25.—A rear end collision occurred yesterday on the El river branch of the Wabash railroad between two sections of a freight. Fireman Leacock, of Butler, Ind., was instantly killed, and his body buried under the wreck of his engine. The engineer of the second section and conductor of the first saved their lives by jumping. The engine is a total wreck.

Chinese Sent Back.

TOLEDO, O., Feb. 25.—Two Chinamen were arrested at the Union station here Monday night on suspicion. Yesterday they were taken before the United States commissioner by the immigration inspector. On the hearing they said they left London, Ont., on Monday, going to Windsor. A short distance from that town they hired a man to row them across the Detroit river, landing at Detroit after dark. From there they came to Toledo. The commissioner ordered them sent back to Canada.

Local Option Bill Defeated.

DES MOINES, Feb. 25.—As anticipated, the Schmidt local option bill was defeated in the senate yesterday. The vote was 25 ayes, 33 nays; the number necessary to a constitutional majority being 26. Every Democrat was present and voted yes.

PROFESSIONAL AND BUSINESS CARDS.

FRANK P. O'DONNELL,

ATTORNEY

And Counsellor at Law. Practices in Mason and adjoining counties. Office in building of Wadsworth & Son.

L. W. GALBRAITH,
